

# KENTUCKY MEN WORK IN MEXICO

## EASY VICTORY FOR RIGHT EASY

Many Louisville Men Hold Fine Positions at Juarez Track.

Early Training in Racing. Spooner Finishes Second.

**L. PASO, Tex., Dec. 12.—(Special.)**—There is one matter in connection with the present Juarez meeting that cannot fail to impress those who have visited the beautiful course, and that is the fact that the track was not only planned, constructed and owned by a Louisville man, but the meeting also is being conducted by men who have received their training in the racing game of the Kentucky metropolises, and whose names are known to every racer in the business State.

These men dominate the meeting and are the controlling forces that go toward making it a success. Harry F. Blevins, assistant to Harry Carr, the track superintendent, who occupies a similar position at Churchill Downs, is another Louisville man. Carr is making good here. Mr. Carr is associated with Lyman Davis during the hot months in order to have a perfect track. Carr is a Louisville man, and is using the new track in a sufficient guarantee that he has not labored in vain. Carr is a Louisville man, and is using the new track in a sufficient guarantee that he has not labored in vain.

# JIM CORBETT SAILS TO HELP JEFFRIES.

**SPECIAL** cable from London says: James J. Corbett sailed for home today on the steamship Mauretania. He is returning to the United States for the purpose of training Jim Jeffries for his fight with Jack Johnson.

Speaking of the fight, Corbett said: "If Jeffries can get back to the form he showed when he beat me, he will make short work of the negro, who, in my opinion, is lucky to have escaped a slaughter during the fight."

Corbett said that he was certain that Jeffries would be able to meet such fighters as John L. Sullivan, Slavin, Joe Goddard or Fitzsimmons.

# GEORGE MULLIN LEADS THE TWIRLERS.

**Official Fitching and Fielding Averages of the American League Announced—Chicago First As a Team.**

**CHICAGO, Dec. 12.**—George Mullin, of the Detroit champions, was the leading pitcher in the American League last season, according to the official fitching and fielding averages issued by President B. B. Johnson here today. Mullin's record was 62 points ahead of Cicotte, of Boston, who had a record of 13 games won and 5 lost for 722. Another Detroit pitcher—Willett—finished third with 22 won and 9 lost for 710.

Krause, the early season sensation of Philadelphia, was tied for fourth with his teammate, Bender, at 62, with 18 won and 8 lost.

Chicago, which finished fourth in the pennant race, led the team fielding with a percentage of .964. Philadelphia finished second, with the Detroit champions third. New York made the greatest number of errors, having 331 charged against them. The figures follow:

Club Fielding.	No. Games.	P. O.	Assts.	Errors.	Pct.
Chicago	153	412	2327	250	.964
Philadelphia	153	413	2327	246	.961

# WHEAT STRONGER

## Argentine Frost Overcomes Bearish Report.

### EXTRAORDINARY CONSUMPTION INDICATED BY STOCKS.

### CORN AND OATS BOTH SHOW STEADY GAINS.

### HOGS SCARCE—PROVISIONS UP

(Correspondence of the Courier-Journal.) Chicago, Dec. 12.—The Chicago grain market, which for the last two or three weeks has been a bearish affair, with interest limited to the professional speculators, took on new life last week. Business was brisk, with bulls much in the majority. The increase in popular interest proved a distinct help to the local professionals who have been campaigning on the bull side.

Although the wheat trade had a very bearish Government report to consider, this was more than offset by the damage by frost to the Argentine crop. This loss to the crop of the South American country, it was believed, was a serious affair. While the bearish report sent out by the Department of Agriculture was conceded to have little if any bearing on May contracts, the labor troubles in the Argentine are taken seriously by the wheat market. The labor troubles in the Argentine are taken seriously by the wheat market. The labor troubles in the Argentine are taken seriously by the wheat market.

The Barlett-Patten house, which had previously been on the bear side of the wheat market, was a big buyer of that cereal during the week. The Barlett-Patten house, which had previously been on the bear side of the wheat market, was a big buyer of that cereal during the week. The Barlett-Patten house, which had previously been on the bear side of the wheat market, was a big buyer of that cereal during the week.

While the reports of frost damage in the Argentine are taken seriously by the wheat market, the labor troubles in the Argentine are taken seriously by the wheat market. The labor troubles in the Argentine are taken seriously by the wheat market. The labor troubles in the Argentine are taken seriously by the wheat market.

The Government report on winter wheat showed that the 1930 acreage seeded for the harvest of 1931 was not very much larger than was seeded the year before. The Government report on winter wheat showed that the 1930 acreage seeded for the harvest of 1931 was not very much larger than was seeded the year before.

Another of the numerous bullish factors of the week was the small stocks of wheat in the Northwest. The two leading Northwest wheat elevators, which had closed navigation with only about 3,500,000 bushels in store, it is certainly evidence of an extraordinary shortage of winter wheat in the Northwest.

In the Chicago market the December option has been hard to buy. When three different contracts were tried, the price was 60.00, the price was 60.00, the price was 60.00. In the Chicago market the December option has been hard to buy. When three different contracts were tried, the price was 60.00, the price was 60.00, the price was 60.00.

Corn prices were higher all around and an unusually big business was done in the pit. There has been a complete reversal of condition in the movement of corn. The corn prices were higher all around and an unusually big business was done in the pit.

Some of the reports stated that fully 10 per cent of the crop had not yet been husked. December corn last week gained 2 1/2 cents. May was 2 cents higher and July gained 3 1/2 cents.

Oats Active and Higher. Oats were active and higher, and there was evidence of a more widespread and general interest in the market. Receipts from every sort did a large business. Receipts were very light and the shipping demand is brisk.

The leading owners of cash oats have stopped offering them from store, current receipts being less than the estimated requirements of feed dealers. On Friday, May 1931, the highest price of the season was 30 cents.

December corn last week gained 2 1/2 cents. May was 2 cents higher and July gained 3 1/2 cents. Oats were active and higher, and there was evidence of a more widespread and general interest in the market.

# Hogs Still Scarce.

The small receipts of hogs at market centers are still having a bullish effect on the provision market. Receipts last week were exceptionally small, and this promoted good buying of a general character, with good gains in prices all along the line.

The average price of hogs in Chicago one day last week was the highest in twenty-seven years, or since 1883. Provision specialists are watching the long receipts with the keenest interest. If the present cold weather prevailing over the corn and hog country fails to bring in very heavy marketings in the next few days, it was believed, was a serious affair.

# Financial and Commercial MONETARY.

Saturday Evening, Dec. 11.—The weekly showing of the New York clearing-house banks was, if anything, a little better than expected. Deposits increased \$2,347,000. Deposits decreased \$5,510,000, which lessened receipts \$3,163,000, and cash decreased \$132,400. Loans decreased \$10,708,000. New York is gaining on the interior movement, and is being sold to South America. The money market developed a little easier tone during the week, but in view of the unusually heavy settlements, the first of the year, material change is looked for until they are out of the way. Abroad the Bank of England continued to reduce its reserves. Its count rate from 5 to 4 1/2 per cent. Its reserves were 56.71 per cent, against 56 per cent. last week.

In the local market conditions are fairly comfortable. Deposits show a tendency to increase. Out-of-town correspondents are increasing. The local money market is fairly comfortable. Deposits show a tendency to increase. Out-of-town correspondents are increasing. The local money market is fairly comfortable.

Lexington, Ky., Dec. 12.—(Special).—Of the new development work now under way in Kentucky petroleum fields that in the lower edge of Wayne county, near the Tennessee border, is interesting, as indicating a trend of operation toward a section which formerly ranked at the top in petroleum production. A recent test across the line, in fact, showed a good yield of oil of excellent quality. Further searches are being made in both States, and during the ensuing month important results are expected from the new work.

A strike of the past week well struck the average in capacity was drilled just above the Tennessee line, near the Kentucky border. The well shows an initial capacity of seventy-five barrels a day. The well shows an initial capacity of seventy-five barrels a day. The well shows an initial capacity of seventy-five barrels a day.
